

## 2015 AgriWeek Announced

CEDEC Small Business Support is proud to be hosting the second AgriWeek event February 17 to 20, 2015.

AgriWeek's mission is to offer Quebec growers, producers and agripreneurs the tools to identify new business opportunities using current management trends and skills development to impact their bottom line.

AgriWeek's vision is to inspire Quebec growers, producers and agripreneurs to proactively seek out opportunities to cultivate their management skills and knowledge by participating in workshops, webinars, consultations, and salons such as AgriWeek.

AgriWeek 2015 will include: a presentation by Farm Credit Canada; a videoconference presentation by the QFA; two webinars so you can lunch and learn from the comfort of your home; two workshops; and the AgriWeek Salon where organizations like Farm Management Canada, Farm Credit Canada, MAPAQ, Emploi Quebec, The Quebec Farmers' Association, La Financière agricole, the Canadian Federation of Independent Business, and more will be on hand to answer your business management questions. You might also be interested in the newest addition this year: The AG Bar where you can privately consult with industry experts free of charge. (Sorry: there won't actually be any alcohol!)

To ensure that we make the AgriWeek experience the best we possibly can for you, we invite you to take five minutes and fill out the six question survey at the following link:

<https://www.surveymonkey.com/s/LTZHJT>

Feel free to forward or share this link with fellow farmers; the more input, the better!
